

Date: 24 Aug 2019 . 98/6/2.

Patient's Name: Z.K.

Responsible Physician: Dr. Omranipour.

Patient Presentation:

-A 37 year old female with bifocal left breast cancer (2 o'clock: IDC, 11 o'clock: DCIS) underwent SSM+ SLNB+ immediate reconstruction with prosthesis.

-Pathology: DCIS (no evidence of invasive component), no LN involvement(0/3), ER+, PR+, HER2 -, Ki67 8%.

Question: Is adjuvant chemotherapy recommended?

Recommended Plan: Adjuvant chemotherapy is not recommended. AI should be administered for hormonal therapy.
