

Date: 20 April 2019 . 98/1/31.

Patient's Name: M.H.

Responsible Physician: Dr.Alipour.

Patient Presentation:

-A 51 year old female with bilateral invasive ductal carcinoma of breast (UOQ of Left breast and LOQ of right breast).

-She has multiple benign looking lesions in both breasts in ultrasound and MRI.

-She prefers to have breast conserving surgery.

Question: Is BCS possible?

Recommended Plan: Bilateral mastectomy.
