

**Date:** 22 June 2019 . 98/4/1.

**Patient's Name:** E.Z.

**Responsible Physician:** Dr.Miri.

**Patient Presentation:**

-A 39 year old female with breast cancer underwent MRM and adjuvant chemotherapy. In pathologic examination margins are reported to be involved.

-In her metastatic work up, widespread bone metastases has been detected.

**Question:** Is margin re-excision helpful?

**Recommended Plan:** According to patient history, shared decision should be made with her oncologist.
