

Date: 1 Aug 2020. 99/5/11.

Patient's Name: Z. H.

Responsible Physician: Dr. Omranipour

Patient Presentation:

- A 73 Y/o female with left breast cancer
- Surgery: mastectomy+ SLNB
- Pathology: Mucinous carcinoma with in-situ component, 3cm, involved 0 out of 8 lymph nodes

LVI-, Grade II

-Immunohistochemistry: ER-, PR-, HER2 -, Ki67 18-20 %

*surgeon and oncologist both think, she is not fit for neo-adjuvant chemotherapy

Question: does she need chemotherapy?

Recommended Plan: no, follow up is appropriate
