Patient's Name: X.A

Responsible Physician: Dr.Alipour

Patient presentation: Known case of left breast cancer (triple negative) that mastectomy and chemotherapy were done for her 8 years ago
Now she requests left breast reconstruction and prophylactic right breast mastectomy
F/H: breast cancer in her grand mother

Question:

Can we do right breast mastectomy?

Recommended plan:

- 1-Genetic test
- 2-Right mastectomy is considered.
