

Date: 14.01.2023; 1401/10/24

Patient's Name: S.K

Responsible Physician: Dr.Alipour

Patient presentation: A 45 year-old woman with left breast cancer that underwent breast-conserving surgery (BCS) and sentinel lymph node biopsy (SLNB).

Pathology: IDC, Luminal A, Tumor size: 17mm, Margins: lateral and inferior were close to DCIS, SLNB 0/5.

Question:

Is re-excision needed or radiotherapy is enough?

Recommended plan:

Only radiotherapy is recommended.
