

**Date:** 11.03.2023; 1401/12/20

**Patient's Name:** F.T

**Responsible Physician:** Dr.Alipour

**Patient presentation:** A 48 year-old woman with right breast cancer that underwent Breast-Conserving surgery (BCS) and sentinel lymph node biopsy (SLNB)

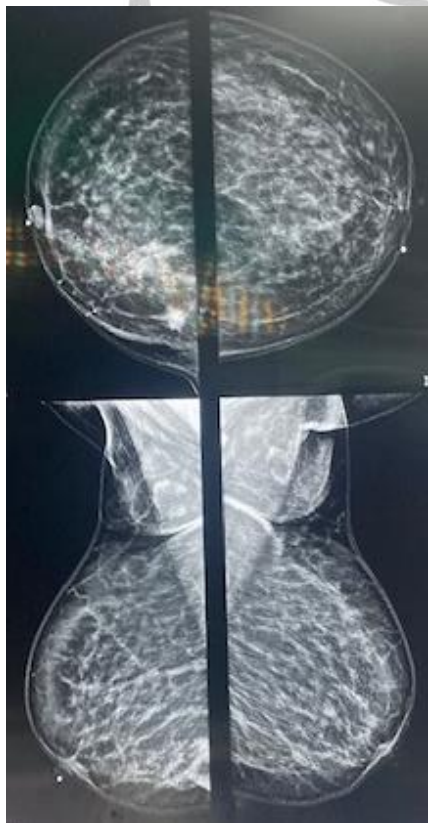

**Pathology:** IDC, Luminal A, Grade: 2, LVI: negative, Margins: free, Second focus: DCIS, Tumor size: 20 mm, Inferior margin is very close.

**Question:**

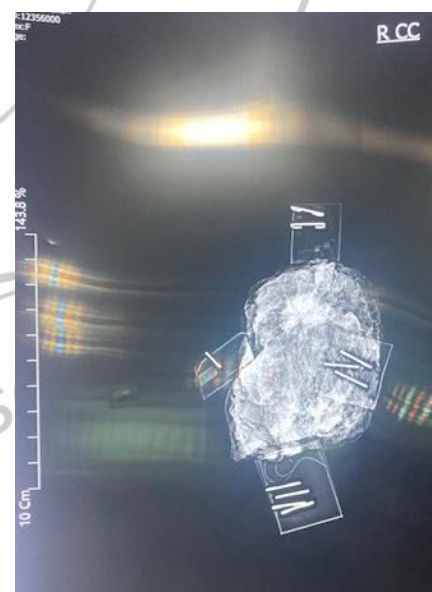

Is re-excision needed?

**Recommended plan:**

There is no need to re-excision, only radiotherapy is enough.
